A partial transcript of Mr. Dulles' testimony before the House Appropriations Committee was picked up from the staff and forwarded to

Furnished the DCI with the membership on the Senate Internal Subcommittee. Also advised him that Mr. J. G. Sourwine has been designated as Chief Counsel. Furnished him an appraisal of Sourwine. This latter information was also relayed to Cord Meyer.

At the request of the DCI I talked with William Heimlich, House Committee on Un-American Activities, and informed him that it was my impression that the DCI had called Francis Walter on the matter of a staff consultation but Walter had not yet returned the call. However, Heimlich was informed that the DCI wanted it made known that he had no objection to discussion the Soviet position with the Committee and its staff but that the real problem arose in connection with possible publication of the Director's statements. Mr. Heimlich was appreciative of this advice and said he would probably talk with Congressman Walter.
